Brikk — Instagram marketing plan

90-day strategy, 30 ready-to-post ideas, posting cadence, DM scripts.

The 90-day Instagram strategy

Instagram is where solo agents already are. Your job is to be in their feed when they're frustrated with follow-up, when Zillow just raised prices again, when a competitor lost a deal to a faster agent. The strategy is not to sell — it's to be the most useful real estate ops account they follow.

Goals for the first 90 days: 1,000 followers, 50 DMs from agents asking about the product, and at least 10 paying customers acquired through Instagram. Then double down.

Account setup

Handle

@**brikk.store** (matches the domain, easy to remember). Also lock @**brikkapp** and @**usebrikk** as backups so squatters don't grab them.

Bio formula (150-char limit)

Line 1: What you do for who (5 words).

Line 2: The proof point (1 specific number).

Line 3: CTA + link.

Example:

Real estate's AI command center

\$75/mo · agents save 45 min/day on follow-up

■ Free for 45 days

brikk.store

Profile photo

Use the two-brick logo on a dark background (public/favicon.svg, scaled up). Recognizable at thumb size. Don't use a person's headshot — confuses the brand.

Content pillars (5 buckets — rotate through them)

Pillar 1 — Agent pain points

Short videos or carousel posts that name a problem every agent has. "You forgot to follow up with the buyer who toured Saturday. Here's what they did next."

Pillar 2 — Product demos

30-90 second screen recordings showing one feature in action. Generate drafts in Copilot, log a contact, see a marketing-ROI insight. End with the price + free trial.

Pillar 3 — Industry stats / commentary

Pull real numbers (NAR data, Zillow research). "78% of buyers pick the first agent who responds. Average agent response time? 15 hours." Add your take.

Pillar 4 — Customer wins

Once you have customers — short clips, testimonials, screenshots of their wins. "Sara closed 4 extra deals last quarter after switching to Brikk."

Pillar 5 — Behind-the-scenes

Building in public. Your morning routine, the code that powers Copilot, a glimpse of a feature in dev. Humanizes the brand.

30 post ideas — copy-paste ready

Aim for 5 posts per week (3 reels, 2 carousels). These 30 ideas cover six weeks of content.

1. Reel: "You missed this hot lead." Show the Brikk Today screen flagging an overdue follow-up.
2. Carousel: "5 reasons agents lose deals (and how to fix #3)." Hook on #3 = forgotten follow-up.
3. Reel: 30-sec screen recording of Copilot drafting a message. Voiceover: "AI wrote this in 4 seconds. Sending it took 1 more."
4. Carousel: "The math of follow-up." Stat-per-slide on response time, conversion drop-off, # of touches.
5. Reel: "What \$300/mo gets you." Pan over Lofty's feature list. Then "What \$75/mo gets you." Show Brikk. End on price.
6. Carousel: "4 fields every realtor CRM is missing." Show pre-approval, timeline, preferred area, contact preference fields in Brikk.
7. Reel: "From walk-in to texted in 30 seconds." Open house → phone snap → voice-to-CRM → AI extracts → tomorrow's follow-up scheduled.
8. Carousel: "Which lead source actually closes?" Pie chart screenshot from Marketing tab.
9. Reel: "Your morning before Brikk vs after Brikk." Split-screen, before = 8 apps, after = 1 screen.
10. Carousel: "7 follow-up message templates that don't sound like a CRM wrote them." Tease 3, hide 4 behind email signup.
11. Reel: Agent testimonial — 30-sec talking head. "I closed two extra deals last month."

12. Carousel: "Zillow vs Referrals — which closes faster?" Use real data once you have it.
13. Reel: "Add a lead in 12 seconds." Screen recording of the leads form.
14. Carousel: "5 signs your follow-up is broken." "You said 'I'll get back to them' yesterday." Etc.
15. Reel: "The text I sent that closed the deal." Show the message — it was AI-drafted. Reveal Brikk at the end.
16. Carousel: "Real estate's \$500/mo software addiction — broken down." Show what each app costs and what Brikk replaces.
17. Reel: "You vs. the agent across town." They're using Brikk. You're still in your inbox.
18. Carousel: "Why first-response matters." Stats + screenshots.
19. Reel: "The 9am Brikk check-in." Voiceover walk-through of the Today dashboard.
20. Carousel: "How a team of 3 closed 11 deals last month." Aspirational, becomes a real customer story once you have one.
21. Reel: "Open houses are a follow-up trap." 30 contacts, 0 next-day touches. Show Brikk fixing it.
22. Carousel: "What's in Brikk that isn't in your CRM." Feature comparison cards.
23. Reel: "Show me your CRM, I'll tell you your conversion rate." Tongue-in-cheek psychic act.
24. Carousel: "5 ways AI is actually useful in real estate." Not generic — Brikk-specific.
25. Reel: "This took 4 hours yesterday. Now it takes 7 minutes." Time-lapse follow-up batch.
26. Carousel: "Pricing comparison." Brikk vs Lofty vs Follow Up Boss vs Chime. Table.
27. Reel: "Three reasons we built Brikk." Founder talking head.
28. Carousel: "Lead capture link 101." Show the `brikk.store/r/CODE` feature.
29. Reel: "The morning standup that closed our team's biggest deal." Story format.
30. Carousel: "45 days free. No card. No catch." Trial pitch, simple.

Reel anatomy — what works on real estate Instagram

First 1 second

Hook with text on screen: "You missed this lead." or "\$300/mo vs \$75/mo." If the first second isn't compelling, the algorithm kills it.

Seconds 1–10

Name the problem specifically. Don't generalize. "Sarah called you Tuesday. You didn't call back. She bought through Mike on Thursday."

Seconds 10–25

Show the solution on screen. Screen-record the app, voiceover walks through it. Caption at the bottom for sound-off viewers (80% of feed scrolls are silent).

Seconds 25–30

CTA. "45 days free. Link in bio." Or "Comment FOLLOW UP and we'll send the template." Comments boost reach.

Posting cadence

Day	Content type	Posting time (PT)
Monday	Reel (Pillar 1 — agent pain)	8:00 AM
Tuesday	Carousel (Pillar 3 — industry)	11:00 AM
Wednesday	Reel (Pillar 2 — product demo)	8:00 AM
Thursday	Carousel (Pillar 1 or 4)	11:00 AM
Friday	Reel (Pillar 5 — behind-scenes)	1:00 PM
Saturday	Story poll or quote	Anytime
Sunday	Story — preview Monday's reel	Anytime

Hashtag strategy

Use 10–15 hashtags per post. Mix three sizes: small (under 50k posts — easy to rank), medium (50k–500k — discovery), and large (500k+ — long tail).

Real estate agent niche:

#realestategentlife #realestatemarketing #realtorlife #realestatecoach #realtoroflife #realestategrowth #realtorsofig
#realestatebusinesstips #buyersagent #listingagent

Software / tools / productivity:

#realestatecrm #realtortech #realestatetech #saasforrealtors #aiforrealstate #realestateassistant #realestateautomation

Local / SoCal:

#socalrealtor #losangelesrealtor #orangecountyrealtor #sandiegorealtor #irvinerealtor #newportbeachrealtor #lajollarealtor

DM playbook

Don't cold-DM agents. It's spam and Instagram throttles you. Instead:

- **Respond to story replies immediately.** Agents replying to your stories are warm leads — get into conversation, then offer a trial link.
- **Comment-to-DM.** Pin a comment on every reel that says "Comment FOLLOW UP and I'll DM you the template." High engagement, opens DM threads.
- **Follow back agents who follow you.** Don't DM them — just be present. They'll DM you when they're ready.
- **If they DM "how much?":** "\$75/mo, 45 days free, no card. Want me to set up your account? Just need your email."

Stories

- **Daily** — at minimum one story per day. Keeps you at the front of your followers' story trays.
- **Polls** — "Do you remember who you last followed up with?" Yes / No. Engagement spikes for 24h after.
- **Behind-the-scenes** — building a feature, debugging, customer call. Founder energy.
- **Reshare** — when a customer posts about Brikk, reshare it. Builds a flywheel.

Growth tactics that are not 'go viral'

- **Engagement pods** — 5–10 other real-estate tool / agent accounts. You all engage with each other's first 30 minutes of posts. Algorithm rewards early engagement.
- **Collaborate posts** — co-author a reel with a real estate coach or trainer. Both audiences see it.
- **Reply to comments on big accounts** — when Tom Ferry or BoomTown posts, leave a useful (non-spammy) comment in the first hour. Their audience sees you.
- **Save a reel format that works** — if a structure works, re-use it weekly with new topics. Don't reinvent every time.
- **Promote good organic posts** — when something hits 5x your normal reach organically, put \$30 behind it for 3 days. Don't promote duds.

Measuring what's working

Weekly review — every Friday afternoon, look at:

- **Reach per post** (Instagram Insights) — flag any post over 5x your average. Make more like it.

-
- **Profile visits → link clicks ratio** — the bio link is your conversion. If visits are high but clicks low, your bio CTA is weak.
 - **Saves and shares** — better than likes. Saved posts get re-served.
 - **DM volume** — your real-world inbound. If DMs aren't growing month over month, content needs to be more specific.
 - **Trial signups from Instagram** — add ?src=ig to your bio link. Check signups in Brikk admin dashboard.
